NWRC Chemical Effects Database Published Bioassay Data Citations

Last Modified:

The bioassay data accessible from the on-line Chemical Effects Database is found in literature identified in this table. The database 'publication code' for each citation is referenced to assist on-line users with locating the primary literature.

For information regarding the raw data archives, please contact sara.j.szakaly@usda.gov.

Publication Code	Citation
A	Schafer, E.W. 1972. The acute oral toxicity of 369 pesticidal, pharmaceutical and other chemicals to wild birds. Toxicology and Applied Pharmacology. 21:315-330.
B	Schafer, E.W., et al. 1973. Comparative toxicity of seventeen pesticides to the Quelea, house sparrow and re-winged blackbird. Toxicology and Applied Pharmacology. 26:154-157.
C	Schafer, E.W., Jr. and R.B. Brunton. 1979. Indicator bird species for toxicity determinations: Is the technique usable for test method development? American Society of Testing and Materials, Special Technical Publication No. 680. pp 157-168.
D	Schafer, E.W., et al. 1967. Substituted phenyl N-methyl carbamates as temporary Immobilizing agents for birds. Journ. of Agric. Food Chem. 15(2):287-289.
