Tips for Renewing Your Accreditation

- You may complete your training anytime during your 3-year renewal cycle but may not apply to renew your accreditation until 6 months prior to your renewal date.
- NVAP strongly recommends you **not** postpone the renewal process until just before your accreditation expires.
- If you perform accredited duties in more than one State, it is only necessary to renew your accreditation one time.
- If you have any questions about your renewal, contact your NVAP Coordinator for the State where your business address is located.

NVAP Coordinators

NVAP coordinators are available to assist you with obtaining, maintaining, and updating your accreditation. As an accredited veterinarian, you must notify APHIS when your home or business contact information changes, one of your veterinary licenses expires or otherwise lapses, or you need to become authorized to perform accredited duties in an additional State. Contact your NVAP coordinator for help with these needs or anything else related to your accreditation.
