Importing Swine and Germplasm into the United States

Last Modified:

There are many processes involved with importing different species of regulated live animals into the United States. This page explains the requirements for importing live swine and swine semen.

View Countries From Which Swine and Their Germplasm May Be Imported

Requirements

Expand All

Ports of Entry

Canadian Border Ports

The following land border ports are designated as having the necessary inspection facilities for the entry of swine from Canada:

- Eastport, Idaho
- Houlton and Jackman, Maine
- Detroit, Port Huron, and Sault Ste. Marie, Michigan
- Baudette, Minnesota
- Opheim, Raymond, and Sweetgrass, Montana
- Alexandria Bay, Buffalo, and Champlain, New York
- Dunseith, Pembina, and Portal, North Dakota
- Derby Line and Highgate Springs, Vermont
- Oroville and Sumas, Washington

Mexican Border Ports

The following land border ports are designated as having the necessary inspection facilities for the entry of swine from Mexico:

- Brownsville, Hidalgo, Laredo, Eagle Pass, Del Rio, Presidio, and El Paso, Texas
- Douglas, Naco, Nogales, Sasabe, and San Luis, Arizona
- Calexico and San Ysidro, California
- Antelope Wells, and Columbus, New Mexico

Air and Ocean Ports

The following ports have APHIS inspection and quarantine facilities necessary for quarantine stations and all swine shall be entered into the United States through

these stations:

- Los Angeles, California
- Miami, Florida
- Newburgh, New York

Live Swine

These species may only be imported from the following listed countries.

Canada

- Protocol Swine Import from Canada (192.08 KB)- 2022
- Protocol Farm Raised Wild Boar Import from Canada (237.98 KB)- 2020
- Protocol <u>Transit of Swine</u>, <u>Sheep and Goats from Canada to Mexico by Land</u>
 Through the United States (184.31 KB)

European Union: A permit and export health certificate are required.

ALERT: Due to the recent detections of foot-and-mouth disease (FMD) in Germany, Hungary, Slovakia, and Austria, import of live swine from these countries is currently **prohibited**.

- Protocol <u>Breeding Swine Import from European Union Member States</u>
 Recognized as Low-Risk for Classical Swine Fever (222.4 KB)
- Model Health Certificate <u>Live Swine Import from European Union Member States</u> Recognized as Low-Risk for Classical Swine Fever (203.65 KB)

United Kingdom: The same conditions as designated in the Protocol for Breeding Swine Import from European Union Member States are used for this type of import. A permit and export health certificate are required.

 Great Britain (England, Scotland, Wales): Health certificate <u>1196EHC_V5_GB.pdf</u> (publishing.service.gov.uk) Northern Ireland: Health Certificate <u>1196EHC_V5_NI.pdf</u> (publishing.service.gov.uk)

Swine Semen

Canada

 No permit is required if the semen tanks are transported by land; an export health certificate is required to import swine semen from Canada.

European Union: A permit and export health certificate are required.

ALERT: Due to the recent detections of foot-and-mouth disease (FMD) in Germany, Hungary, Slovakia, and Austria, import of swine semen from these countries is currently **prohibited**.

- Protocol for Swine Semen Import from Member States of the EU (157.23 KB)
- Model Health Certificate <u>Swine Semen Import from Member States of the EU</u> (167.33 KB)
- Model Health Certificate Swine Semen Import from the Netherlands (170.19 KB)

Norway: A permit and export health certificate are required.

Health Certificate <u>Swine Semen Import from Norway</u> (923.89 KB)

United Kingdom: A permit and export health certificate are required.

- Great Britain (England, Scotland, Wales): Health Certificate <u>1319EHC_V1_GB.pdf</u> (publishing.service.gov.uk)
- Northern Ireland: Health Certificate <u>1319EHC_V1_NI.pdf</u> (publishing.service.gov.uk)

What You Need To Know

 U.S. transits are classified as shipments presented to a U.S. port of entry for conveyance purposes to then be transported to a destination country shortly after.

 Notice Regarding APHIS Live Animal Import and Third-Country Import Transit Permits (272.29 KB)

Please note that any animals and their germplasm transiting the United States
must not transit countries with questionable disease statuses prior to reaching
a U.S. port of entry.

 All transits require a contingency plan. Submit your contingency plan with your permit application (<u>VS 17-129</u> (211.74 KB)) to <u>laipermits@usda.gov</u>. To submit an import permit electronically, visit <u>APHIS eFile</u>.

If you are applying to import live animals, semen, and embryos, you may submit applications by email to laipermits@usda.gov.
